

Statement from Edmonton Manning MLA Peter Sandhu

“ I am proud of my 21 year history of building homes and communities for Edmonton families. I sought the honour of being the MLA for Edmonton-Manning in part because of my desire to build better communities for the capital region. Over the 21 years, Newview built hundreds of homes using a large number of contractors. It is impossible to build hundreds of family homes without having a few issues with contractors to ensure a quality product for the homeowner. Since becoming an MLA, I have maintained minimal involvement in the day to day operations of Newview Homes, instead leaving it to my wife, adult son, brothers and nephews. In addition, I have met regularly with the Ethics Commissioner to discuss my personal finances and have always followed his advice. As the issues you raised are matters before the courts, it would be inappropriate for me to comment on them but I am confident that any court that may look into this matter will find that I and my family have always acted in accordance with the highest legal and ethical standards of the industry.”
